WHO WE ARE.

We are BMG - The New Music Company. Founded in 2008 with a revolutionary vision for the digital age. Starting afresh has allowed BMG to rethink the music industry from the ground up, with systems and structures and processes designed for today. While historically music publishing and the record business have been regarded as completely different businesses, BMG realises that in the age of streaming, they have more in common than ever before.

That means whatever functions we can manage together, we do manage together. And because we live in the age of the World Wide Web, we are resolutely an international company.

Virtually every department has an international reporting line as well as a local one. We are one company - worldwide.

OUR VISION.

A world in which every artist and songwriter gets to achieve their potential and receives a fair reward for doing so.

Music isn’t just another business. Music is created by individuals, each of them on their own creative journey taking huge risks. The fruits of that creativity need to be paid for. Fairly and efficiently.

BMG aligns itself with the interests of the creative community of music.

OUR MISSION.

To create a better kind of music business.

A digital-age music rights platform which is fair, transparent and service driven and inspires by example a positive change in the wider music industry.
